Inhalt/Contents

Altomare F, Attalienti A: Forword diffusion equations and positive operators 211
Attalienti A → Altomare F 211
Ayache A, Jaballah A: Residually algebraic pairs of rings 49

Baldo S, Orlandi G: Cycles of least mass in a riemannian manifold, described through the "phase transition" energy of the sections of a line bundle 639
Barvinok AI: On the Betti numbers of semialgebraic sets defined by few quadratic inequalities 231
Belliart, M: Actions sans points fixes sur les surfaces compactes 453
Benkart G, Britten D, Lemire F: Modules with bounded weight multiplicities for simple Lie algebras 333
Britten D → Benkart G 333
Burstall F, Hertrich-Jeromin U, Pedit F, Pinkall U: Curved flats and isothermic surfaces 199

Carreras FJ, Giménez F, Miquel V: Immersions of compact riemannian manifolds into a ball of a complex space form 103
Choie YJ: Jacobi forms and the heat operator 95

Dirkes U: On the regularity of solutions for a singular variational problem 657
Doković DŽ, Thắńg NQ: Lie groups with dense exponential image 35

Efrat I: Free pro-p product decompositions of Galois groups 245

Fang Y, Hutchinson JE: Hessian energy and optimal parametrisations of surfaces 507
Felmer PL → Pino M del 671
Fenley SR: Homotopic indivisibility of closed orbits of 3-dimensional Anosov flows 289
Ferreyra E, Godoy T, Urciuolo M: Boundedness properties of some convolution operators with singular measures 611
Florit LA: A splitting theorem for Euclidean submanifolds of nonpositive sectional curvature 685

Galé JE, White MC: An analytic semigroup version of the Beurling-Helson theorem 151

Giménez F → Carreras FJ 103
Godoy T → Ferreyra E 611
Gonzalez-Vega L, Lombardi H: Smooth parametrizations for several cases of the Positivstellensatz 427

Hamel J van: Real algebraic cycles on complex projective varieties 177
Hermiller SM, Meier J: Tame combings, almost convexity and rewriting systems for groups 263
Hertrich-Jeromin U → Burstall F 199
Honvault P: Ensembles de module maximum des domaines ridges de C^2 295
Hutchinson JE → Fang Y 507

Jaballah A → Ayache A 49
Jutila M: The additive divisor problem and its analogs for Fourier coefficients of cusp forms. II 625

Lanteri A, Maeda H: 2-very ampleness for adjoint bundles of ample and spanned vector bundles on surfaces 355
Lemire F → Benkart G 333
Lesh K: Infinite loop spaces from group theory 467
Lombardi H → Gonzalez-Vega L 427

Maeda H → Lanteri A 355
Maeda S, Ogiue K: Characterizations of geodesic hyperspheres in a complex projective space by observing the extrinsic shape of geodesics 537
Mangolte F: Cycles algébriques sur les surfaces K3 réelles 559
Martino J, Priddy S: On the cohomology and homotopy of Swan groups 277
Meier J → Hermiller SM 263
Menini C: Estimations pour *la résolution du* $\bar{\partial}$ *sur une intersection d'ouverts* strictement pseudoconvexes 87
Miquel V → Carreras FJ 103
Morón MA, Ruiz del Portal FR: Shape as a Cantor completion process 67

Naito Y, Usami H: Entire solutions of the inequality $\operatorname{div}(A(|Du|)Du) \geqq f(u)$ 167
Nayatani S: Patterson-Sullivan measure and conformally flat metrics 115

Ogiue K → Maeda S 537

Okonek C, Teleman A: Seiberg-Witten invariants and rationality of complex surfaces 139
Orlandi G → Baldo S 639

Parker JR: Uniform discreteness and Heisenberg translations 485
Pedit F → Burstall F 199
Pinkall U → Burstall F 199
Pino M del, Felmer PL: Local minimizers for the Ginzburg-Landau energy 671
Priddy S → Martino J 277

Qing J: Renormalized energy for Ginzburg-Landau vortices on closed surfaces 1

Ratto A, Rigoli M, Veron L: Scalar curvature and conformal deformations of non-compact Riemannian manifolds 395
Rigoli M → Ratto A 395
Ruiz del Portal FR → Morón MA 67

Shin D-K: Some inequalities between K_X^3 and $\chi(\mathcal{O}_X)$ for a threefold of general type 133
Skiti M: Sur une famille de fibrés instantons 373
Srinivas V, Trivedi V: A finiteness theorem for the Hilbert functions of complete intersection local rings 543

Tamanoi H: Multiplicative indecomposable splittings of $MSp_{[2]}$ 577
Teleman A → Okonek C 139
Thắng NQ → Doković DZ 35
Trivedi V → Srinivas V 543

Urciuolo M → Ferreyra E 611
Usami H → Naito Y 167

Veron L → Ratto A 395
Villamayor OE: On smoothness and blowing ups of arithmetic schemes 317
Van Hamel J: Real algebraic cycles on complex projective varieties 177

White MC → Galé JE 151
